

# DCC Consultation on the Migration Reporting Regime

**Date:** 29 January 2019

**Classification:** DCC Public

---

## 1. Introduction and Context

The TMAD was consulted on in May 2018 (TMAD v.0.1) and October 2018 (TMAD v.0.2). A further version of the TMAD (v0.3) was provided to BEIS for designation into the SEC on 21 December 2018. The TMAD requires that DCC develop and consult on a number of 'child' documents (which provide further operational and technical details). DCC has been in discussion with stakeholders on the content of these 'child' documents during various workshops with industry.

DCC is consulting now the Migration Reporting Regime Methodology.

It should be noted that this consultation document should be read in conjunction with the TMAD v0.3 ([www.smartdcc.co.uk/smart-future/enrolment-and-adoption](http://www.smartdcc.co.uk/smart-future/enrolment-and-adoption)).

## 2. Migration Reporting Regime

The Migration Reporting Regime sets out the routine reporting that DCC will provide regarding TMAD related activities. There will be public reporting on overall outcomes including information on the DCC's overall migration activity against its Demand Commitments made within the Migration Scheduling Methodology. The approach to reporting has been based on various stakeholder engagement. The majority of stakeholder requirements have been met except for the requirement for dynamic real time reporting which DCC is not proposing given the cost / complexity of delivering and supporting such an arrangement. There will also be confidential reporting to each Responsible Supplier covering the status of migration for their SMETS1 Installations..

**MRR  
Q1**

*Do you have any detailed comments on the Migration Reporting Regime? Please provide a rationale for your views.*

## 3. Next Steps

Following this consultation, DCC will take into account respondents' views, and publish an updated version of this child document once the TMAD is designated by BEIS.
