1. Introduction and Context

A number of energy suppliers have installed first generation smart devices (known as SMETS1 devices) in consumers' premises across Great Britain. The Data Communications Company (DCC) has designed a solution for the enrolment of SMETS1 devices into its network. Part of DCC's plan to deliver SMETS1 services involves a detailed approach for migrating SMETS1 Installations into DCC's systems. The detailed technical and procedural requirements of this approach are set out in the SMETS1 Transition and Migration Approach Document (TMAD) which is Appendix AL of the Smart Energy Code¹.

Clauses 4.45 and 4.46 of the TMAD covers the arrangements for initial development and subsequent change of the Migration Reporting Regime (MRR). The current version of the MRR² was effective from 31 July 2020 following a stakeholder consultation that was concluded upon on by DCC on 16 July 2020, which indicated that further changes would be required to align the MRR with the arrangements for MOC (Secure).

The proposed changes made to the MRR within the scope of this consultation are against the current MRR as set out in Section 2 of this document. This consultation document is seeking views on the detailed amendments to the MRR.

2. Changes to the MRR

DCC is proposing a limited number of changes to the MRR and accordingly only a delta version is provided.

In addition to the MOC Secure specific changes, there are a few minor drafting changes within the legal drafting to amend typographical errors and improve clarity. The key proposed changes to the MRR are set out in Table 1 - Overview of Drafting Changes.

No	MRR Reference	Description and Rationale for Change
1.	Page 12, Appendix A	To align with the current production solution, the text has been changed to clarify that only S1MIG-007 and S1MIG-008 apply to Active Meter Migrations. S1MIG-009 and S1MIG-010 provide reporting for both Active and Dormant Meters.
2.	Page 12, Appendix A	Clarification that S1MIG-009 Report is made available to Supplier Parties with successfully validated Migrations Authorisations in the Reporting Period. Please note this is a documentation change only.

² <https://www.smartdcc.co.uk/document-centre/tmad-child-documents/migration-reporting-regime-mrr/>

No	MRR Reference	Description and Rationale for Change
3.	Page 15, Appendix A, S1MIG-002	Text added for Group ID = "DA" to include the failed pre-migration validation checks carried out up to 7 days in advance (TMAD clause 16.9) in the scope of this report. This change is required to align MOC Secure data at the point in the migration process allowing reporting on TMAD 16.9 steps failures.
4.	Page 27, Appendix A, S1MIG-006	The text for Group ID = "DA" has been removed. The MRR solution has been standardised and interim changes to specify Group ID = "DA" behaviour are no longer required.
5.	Page 29, Appendix A, S1MIG-006	Validation Reason Code and Completion Reason Code descriptions changed to remove pre-migration validation checks. The MRR solution has been standardised and interim changes to specify Group ID = "DA" behaviour are no longer required.
6.	Page 37, Appendix A, S1MIG-010	To align with the current production solution, the text has been changed to clarify that S1MIG-010 also provides reporting for Dormant Meters. S1MIG-010 provides reporting for both Active and Dormant Meters.
7.	Page 37, Appendix A, S1MIG-010	The text for Group ID = "DA" has been removed. The MRR solution has been standardised and interim changes to specify Group ID = "DA" behaviour are no longer required.
8.	Page 11, 12, 16, 19, 24	Provided better clarifications, rewording for clarity, documentation inconsistency fixes Please note these are documentation changes only.

Table 1 - Overview of Drafting Changes

MRR for MOC (Secure) Q1	Do you have any comments on changes to the MRR for MOC (Secure) within the scope of this consultation?
--------------------------------	--

3. Next Steps

Following the closure of this consultation, DCC will consider respondents' views consistent with the requirement to engage with stakeholders as per Clause 4.45 of the TMAD and then conclude on the updated MRR.

Consistent with Clause 4.46 of the TMAD, within one month of the publication of the MRR and provision of copies of the document to the Panel, the Parties, the Authority and the Secretary of State, any Supplier Party may refer the MRR to the Secretary of State.

4. How to Respond

Please provide responses in the attached template by 1600 on Wednesday 9 September 2020 to DCC at consultations@smartdcc.co.uk.

Consultation responses may be published on our website www.smartdcc.co.uk. Please state clearly in writing whether you want all or any part, of your consultation to be treated as confidential. It would be helpful if you could explain to us why you regard the information you have provided as confidential. Please note that responses in their entirety (including any text marked confidential) may be made available to the Department of Business, Energy and Industrial Strategy (BEIS) and the Gas and Electricity Markets Authority (the Authority). Information provided to BEIS or the Authority, including personal information, may be subject to publication or disclosure in accordance with the access to information legislation (primarily the Freedom of Information Act 2000, the Data Protection Act 2018 and the Environmental Information Regulations 2004). If BEIS or the Authority receive a request for disclosure of the information we/they will take full account of your explanation (to the extent provided to them), but we/they cannot give an assurance that confidentiality can be maintained in all circumstances. An automatic confidentiality disclaimer generated by your IT system will not, of itself, be regarded by us as a confidentiality request.

If you have any questions about the consultation documents, please contact DCC via consultations@smartdcc.co.uk.
