## **Appendix A – Increasing Communications Hub Orders .....3**

### **1.1. Maximum Increase for Delivery Months as of September 2020 ..... 3**

## Appendix A – Increasing Communications Hub Orders

This appendix provides further information on the proposed requirements in relation to increasing Communications Hub Orders for both Regions.

As proposed in the consultation document, SEC Parties will be able to increase their Communications Hub Orders within similar tolerances to those currently set out in SEC Section F5.10(b). This means Communications Hubs Orders can be increased:

- up to 20% if submitted 5 months prior to the Mid-Term Delivery Month;
- up to 50% if submitted 8 months prior to the Mid-Term Delivery Month; and
- by any amount if submitted 11 months prior to the Mid-Term Delivery Month.

Where an increase is submitted between 5 months and 30 days prior to the Mid-Term Delivery Month, DCC propose using the current non-standard delivery options in accordance with SEC Section F6.17.

### 1.1. Maximum Increase for Delivery Months as of September 2020

The table below sets out the maximum increase permissible for each Month if submitted to DCC in **September 2020**.

Mid-Term Delivery Month	Increase	Charges
October 2020	Any	Non-Standard Delivery charges
