

Request to Exclude Electronic File Format

Version 1

1 Request to Exclude

The Transition and Migration Approach Document (TMAD) is Appendix AL of the Smart Energy Code. The TMAD allows a Responsible Supplier to request partial migration (migration of the ESME and exclusion of the GSME) where there is persistent failure of HAN communication between the GPF and the GSME. Clause 5.8D of the TMAD requires that the Request To Exclude is in a reasonable electronic format. DCC has prepared this document to capture the Request to Exclude file format. This document will be shared with Responsible Suppliers.

All data sent for use in the DCC Systems for the purposes of a Request to Exclude shall be in the format of a CSV file. The CSV file specification for Requests to Exclude are provided in this document.

2 File name

Request to Exclude CSV shall be named in this format:

File Type	File name format	Example
RTE	<FILE TYPE>_<3 char SMSO Name>_<SEC Party ID>_<YYYYMMDD>_<HHMMSS>.csv	RTE_SCM_ABC123_20211210_142343.csv

Table 1: Request to Exclude File Name
